DEER LODGE, Jan. 23 .- [Special Correspondence of the Independent. |-The boiler and heating apparatus for the new dormi-tory has arrived and Kelly Bros. are putting it in as fast as possible. When the work is done the two dormitories will have hot and cold baths on every floor. The dining-room in the basement of the new building is large enough to accommodate the students from both dormitories and the one now in use will, together with the entire basement of the old dormitory, be converted into recitation and laboratory rooms and used by the scientific and school of mines departments. The room now occupied by the library, which numbers between 700 and 800 volumes, will be used by the Gamma Theta literary society, while the library will be moved to Trask Hail, now used by the art department. Another gentlemen's literary society is in prospectu and will probably be organized in the near future.

Ryon, Mr. Moog, and Miss Lizzie Hyde, the 12-year old daughter of Joseph Hyde, who, by the way, has extraordinary musical talent—Miss Abbie Birdsall, the elocutionist, recited several selections, and her sister, teacher of vocal and instrumental music, with several others, sang solos and choruses. The penitentiary choir also sang a few songs. It was a concert to be remembered by all present, but specially by the prisoners. Miss Birdsall, assisted by her sister and others, gives an elocutionary and musical entertainment to-night at the opera house.

The river is frozen over and students and professors are enjoying the fine skating.
